CAREER OBJECTIVE

Highly motivated Cloud Engineer and IT professional with over 4 years of experience in Windows, Linux, and virtualized environments. Seeking a challenging Cloud Engineer role where I can leverage AWS, automation, and CI/CD expertise to build scalable, secure, and reliable cloud solutions while contributing to organizational growth.

PROJECTS

- **Static Website Hosting on Amazon S3** - Configured S3 for static website hosting with security best practices.
- **Automated EC2 Deployment using CloudFormation** - Created CloudFormation templates to automate infrastructure provisioning.
- **Docker single tier app-** Containerized a single-tier application using Docker and build, test, and deploy the application.
- **Docker Compose-app** - Deployed a multi-container application using Docker Compose.

SKILLS

Cloud & DevOps - AWS: EC2, S3, IAM, VPC, CloudFormation, Lambda, CloudWatch - CI/CD: Jenkins, GitHub Actions - Containers & Automation: Docker, Kubernetes, Ansible

Systems & Tools - Linux & Windows Server Administration - Tomcat Server, Nagios, Maven - Technical Support, Remote Support, System Troubleshooting
